

Dear Parent or Guardian,

Your student has the opportunity to apply for membership in a first-of-its-kind **Internship Ready Pilot Program** facilitated by Office Divvy in partnership with the Flagler County Education Foundation.

Students who apply and are accepted in the Internship Ready Pilot Program will attend workshops and learn about digital space, business and being relied on as a team member of an organization – skills that will stay with them no matter what field they choose.

Best of all, **students will have the chance to apply for paid summer internships** at the end of their training.

Before students can apply we need permission from a parent or guardian to allow students to register online. Registration does not allow a business to view student information submitted online.

If you have any questions concerning the Intern Ready Pilot Program please feel free to contact Flagler County Education Foundation Executive Director Joe Rizzo at 386-437-7526 ext 3125.

High School: _____

Student Name: _____

Parent/Guardian Name Printed: _____

I give permission for the student listed above to register on Internready.org for the purpose of exploring and/or applying for opportunities for internships, job shadowing, or job opportunities.
